

Bodystrap[™] 26

Elastic Lumbar Support

Bodystrap 26 – Elastic Lumbar Support

Lower back pain, whether acute or chronic, can be crippling, affecting our capacity to carry out common daily tasks. DonJoy's new Bodystrap 26 provides support and compression, helping improve posture and alleviate lower back pain symptoms, so patients can reclaim and enjoy their daily activities.

Indications

- Acute, sub-acute or chronic lower back pain
- Return to daily living activities, lightweight tasks

Therapeutic Benefits

- **Pain relief:** Applying compression helps alleviate lumbar pain symptoms
- **Posture control:** The lumbar support acts as a postural reminder, helping avoid strenuous movements

Features & Benefits

Strong compressive elastic material

Promotes correct posture and controlled movement within a secure range-of-motion

4 Flexible dorsal stays

Support and stabilise the sacro-lumbar area; stays are encased in padded foam for added comfort

Bilateral elastic straps

Help adjust compression level according to personal needs

Finger loop

For ease of application

Ergonomic front panel

Provides optimal comfort while sitting or standing

Low profile design

Beige tone is aesthetically pleasing and allows for discreet wear
