## MyBabyStrap™

Lumbar maternity belt for relief and support during pregnancy and after birth

### Indications: Pain and discomfort associated with pregnancy

- Lower back pain
- Pelvic pain
- Sacroiliac pain
- Postural instabilities
- Discomfort due to stretching and expansion of the abdomen
- Back support after birth

#### Modular design:

adaptable to all stages of pregnancy and also after birth. Easy to adjust

#### Adjustable back pad:

for additional support and compression in the back area

#### Four posterior rigid stays:

for extra support in the lumbar area

#### Bilateral straps:

for adjustable relief. Tightness can be adjusted according to individual needs and level of pain

**Anatomical shape:** follows the natural contours of a pregnant body for an improved fit, with no pressure on the abdomen

**Stylish maternity belt:** featuring feminine details (silver threads and scalloped edge design)

**Thin, soft and breathable fabric:** for a comfortable fit

**Ergonomic front panel:** for comfort when sitting or standing

**Easy-to-use with simple, hook-loop closure:** patients can quickly adjust the belt to the desired level of comfort

**Removable elastic strap:** for lower abdominal support. Easy application
