# toucan<sup>™</sup>

## Angle adjustable centre bar

The Toucan has easy and steady angle adjustment making it possible to obtain the optimum standing position.

## Handle with lock

The handle for angling the centre bar is equipped with a security lock. Pull out the lock whilst turning the handle to change the angle.

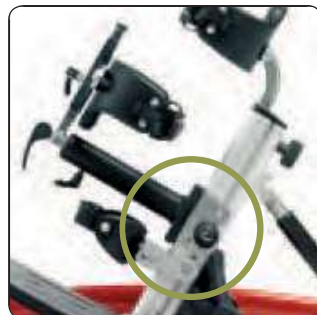

## Wheels with locks

All four style wheels are equipped with locks securing the Toucan for stability. The wheels are very easy to manoeuvre making it easy to move the Toucan around.

## Prepared for accessories

All sizes of Toucan can be equipped with all sizes of accessories. The Toucan is designed with slots in the centre bar for easy and simple mounting.

The Toucan standing frame comes with soft curves and smart colours. It is designed to support the user in the upright and prone position.

The distance between the side bars of the frame allows almost any wheelchair or static seating system to go in between. A good feature for transfer from wheelchairs etc. into the Toucan.

The Toucan is available in 5 sizes and suitable for children/teenagers from the age of approx. 1-18 years. We recommend using the measuring chart to find the correct size.
